

## ENVIRONMENTAL POLICY

GAP Group UK (Incorporating PA Moody Recycling Limited, GAP Waste Management & Transport, GAP Materials Processing Limited, GAP Ice, SIRG GAP Polymers, GAP Organics, and NEST Road Developments Limited), hereinafter referred to as "GAPGPAUK," operates a Waste Electrical Electronic Equipment (WEEE) Transfer and Treatment Facility, Food Waste Anaerobic Digestion Facility, General Haulage services, storage and distribution services, waste recycling, and treatment; We are committed to the promotion of environmental awareness of our employees and to involve them in the implementation of measures to improve our management of the environment as affected by our business activities

The successful implementation of this policy has its foundations in the personnel and the visible commitment and involvement of every person working for the Company.

We are committed to implementing this policy in the following ways:

- By managing the business of the company such that detrimental environmental aspects are minimised by operational controls and, where possible, beneficial environmental measures are introduced.
- By seeking continual improvement of our environmental performance and to achieve this by setting clear environmental objectives and regularly monitoring progress towards them.
- By complying in full with relevant environmental legislation and to work in partnership with regulatory bodies in order to achieve this.
- By preventing pollution.
- By setting and meeting waste recycling targets.
- By communicating our Environmental Policy to our employees and making it available to the public.

In order to ensure that these objectives are achieved, the Company implements and maintains its Environmental Management, as a framework for the integration of sound environmental practices into all its business operations.

Signed:

Date: 5<sup>th</sup> March 2021

Peter Moody  
(Managing Director – PA Moody Recycling Limited)
